## Connection Diagram :

## Switching mode :

### 1. Switch manual/ auto switching mode

- (1) Press the button 'Selected' for 5 seconds, then all the indicators will flash three times, the switch enters manual mode
- (2) Press the button 'Selected' for 5 seconds, then all the indicators will flash once, the switch enters auto mode

### 2. Manual switching mode

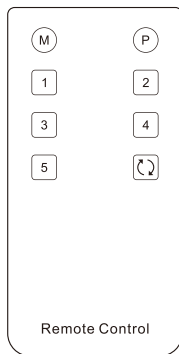

When attaching a new input source or removing a connected port, you need to switch the signal to a valid port with input via the panel button 'Selected' or the key on remote control.

### 3. Auto switching mode

- (1) When attaching a new input source to the switch, the switch will switch to last plugged in source automatically.
- (2) When removing a connected input source, the switch will switch to the first valid input source automatically.
- (3) If the switch is connected to the inactive source in manual switching mode, switching from manual mode to auto mode, after 2~3 seconds the HDMI switch will switch to the next valid port automatically.

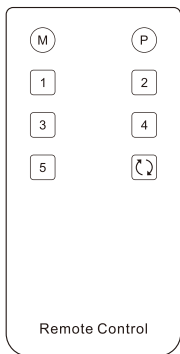

## 3x1 IR Remote Control :
